OneSource Virtual and Workday for state & local governments

Empower your agency with secure, scalable payroll, benefits, and AP solutions

State and local governments are under growing pressure to modernize aging systems, deliver services more efficiently, and meet rising citizen expectations while managing tight budgets, regulatory demands, and workforce challenges. Legacy technology amplifies these complexities, making it difficult to maintain compliance, manage multi-jurisdiction operations, and retain skilled staff. Traditional solutions can't keep pace with the speed of change. Innovative, Workday-native services are essential to move the government forward.

"We support the unhoused in Atlanta. We really need to have our employees focus on that and not what's going wrong with payroll and HR, and OSV really allows us to do that."

**Marya Calhoun, Senior Vice President of
Human Resources at Atlanta Housing Authority**

OSV can help:

Reduce overhead by shifting time-consuming administrative tasks to OSV, freeing internal teams to focus on higher-impact priorities.

Protect sensitive data with our secure, in-tenant model that eliminates risky file transfers and ensures audit-ready accuracy.

Improve budget predictability with fixed, scalable services that adapt to staffing changes from elections, projects, or emergencies.

Support retention and morale by delivering accurate payroll, timely garnishment processing, and employee financial well-being tools.

Boost operational efficiency through automated, jurisdiction-aware tax filing and proactive account management.

Our services include:

- **Payroll administration services:** Ensure timely and accurate payroll runs, especially across unionized or multi-tier workforces, with automation that reduces manual effort and minimizes risk.
- **Automated payroll tax filing:** Avoid penalties and stay compliant with federal, state, and local payroll tax regulations through proactive, multi-jurisdictional filing support.
- **Garnishment processing:** Simplify complex wage garnishment processing, including child support and tax levies, with full-service administration and legal compliance.
- **Integrated benefits administration:** Streamline benefits management and reduce administrative overhead by letting us handle benefit programs directly within Workday.
- **Automated invoice processing:** Speed up vendor payments and improve accuracy with OCR-powered invoice capture, coding, and approval workflows—all managed securely in Workday.

"I would describe our relationship as transformative... we actually have a relationship where we can just focus on the strategic. We are no longer spending time following up on cases. We've also reduced time and errors."

Marya Calhoun, Senior Vice President of Human Resources at Atlanta Housing Authority

Why OneSource Virtual?

Seamless Workday integration:

Our solutions are delivered directly within your Workday tenant, ensuring a secure, unified experience across your agency.

Real-time reporting: With detailed data available in real time, you can maintain report quality, improve audit readiness, and enhance strategic insights.

Scalable for government needs:

From small municipalities to large state departments, our services scale with your workforce and adapt to seasonal or emergency staffing needs.

Dedicated support: Our experts understand the nuances of public sector operations and offer tailored guidance to help you stay compliant and efficient.

Commitment to innovation: We continuously evolve our services to meet the changing needs of government — delivering Workday-native capabilities such as EWA and automated compliance tools that simplify operations and reduce risk.
