

Take control of your tax code management directly in OSVSphere.

Data sheet

Faster turnaround. Real-time visibility. No more waiting on cases.

Managing tax codes across multiple jurisdictions is complex, time-sensitive, and unforgiving when something falls through the cracks. OneSource Virtual's tax services give you direct control over your most common tax actions inside OSVSphere, through guided workflows that are built to be accurate, fast, and fully visible from submission to completion.

Real-time request visibility

Track every submission from request to approval in your dedicated grid

Zero case searching

Everything lives in one place. No more hunting through support cases for answers

All-in-one tax code hub

All tax feature in a single, unified platform experience

What is OSVSphere Tax?

A suite of features inside OSVSphere that allows you to submit, track, and manage routine tax code actions directly in the platform. Every feature includes built-in validations to reduce errors, a dedicated grid to track status in real time, and full submission history so you always know where things stand. The OSV tax team handles the work on the back end, but the experience is in your hands.

The impact

10 – 14 hours

Average case turnaround

29,000+ submissions

Processed through self-service since 2022

1M+ hours

Open case time prevented avoided

The features

Tax code inactivation

Inactivate tax codes when exiting a jurisdiction, with automatic validation of outstanding wages and filing requirements.

Add tax code

Add tax codes for new jurisdictions using a guided workflow that captures required codes, rates, and filing details.

Unemployment rate submission

Submit updated state unemployment rates through a guided workflow that helps ensure accurate, complete submissions.

Amendment request

Correct prior-quarter tax discrepancies with consolidated amendment requests organized by year, quarter, and jurisdiction.

Estimated tax payments

Submit time-sensitive advance tax payments directly in OSVSphere, with visibility into reconciliation once actuals are applied.

Tax registration

Simplify new-state tax registration with information collection built directly into the tax code setup workflow, eliminating separate cases and spreadsheets.

State tax credits

Manage state tax credits in one centralized location to reduce manual effort and ensure accurate, timely application.

How it works

Submit

Enter your request directly in OSVSphere through a guided workflow with built-in validations

Review

Smart validations run instantly, catching errors before they cause delays

Approve

Requests are fast-tracked to the OSV tax team for rapid closure

Track

Every submission lives in your dedicated grid with full audit trail and status visibility

Dedicated grids for every feature

Every feature has its own dedicated grid inside OSVSphere. See exactly when a request was submitted, who submitted it, when it was approved, and full submission details, all in one place. No more searching through support cases for answers.

OSVSphere's tax services are built for companies that can't afford to wait. Whether you are expanding into a new state, managing compliance deadlines, or correcting prior-quarter discrepancies, every tool you need is inside OSVSphere, ready when you are.
