

Employment and Income Verification

Give your employees faster income verification, at no cost to you.

Every time an employee applies for a mortgage, finances a car, signs a lease, or enrolls in a government program, someone has to confirm their employment and income. Traditionally, that's meant someone on your team has had to locate that information and submit it as quickly as possible. But this approach is slow and poses a real risk that sensitive data could be exposed to the wrong party.

OneSource Virtual takes the pressure off your team

With our Workday-native payroll infrastructure, plus our partnership with The Work Number® by Equifax, we deliver automatic employment and income verification for your employees. And because it's included with our payroll services, there's no separate license, no implementation fee, and nothing is passed on to your employees.

How this helps your team

- No more verification calls, faxes, or forms
- Equifax handles compliance under the Fair Credit Reporting Act (FCRA)
- No added cost — it's included in our payroll services

How this helps your employees

- 24/7 verifications with no waiting on HR
- Faster approvals on mortgages, auto loans, and apartment applications
- Data is only shared with the employee's consent and protected under FCRA

By the numbers

75,000+

Verifier organizations
using The Work Number®
when employees seek loans
or aid

2.5M+

Employer contributors
of all sizes already
participating

23%+

After-hours verifications
completed outside
business hours

The Work Number® covers more than half of the U.S. non-farm workforce, including independent contractors.

Get started

If you're already a OneSource Virtual payroll customer, talk with your representative about how you can start using our employment and income verification service. Not yet a customer? Let's talk about how our Workday-native services can transform payroll for your team.
