

OneSource Virtual for Healthcare

Simplify healthcare operations, maximize patient care

As healthcare leaders, you're navigating a complex landscape filled with unique challenges — from high employee turnover and multi-jurisdictional payroll compliance to rising operational costs and outdated technology. With resources often stretched thin, staying compliant with changing tax laws and garnishment orders can feel overwhelming. Traditional approaches won't suffice anymore. Embracing innovative solutions is crucial for streamlining operations and delivering the quality patient care your organization strives for.

"Accuracy and scalability are a must for our payroll team. OneSource Virtual seemed like a great company to offer these critical skills."

Yelena Khaymovich
Associate Director of Payroll
Jazz Pharmaceuticals

OneSource Virtual can help

Enhance employee satisfaction:

Ensure accurate and timely pay with flexible options like earned wage access, financial well-being tools, and dedicated benefits support to boost morale and productivity.

Manage cash flow effectively:

Utilize our accounts payable solutions to automate invoice processing, reduce costs, and generate revenue with our rebate program.

Reduce overhead: Avoid unexpected operational costs and scale seamlessly without overhauling processes or increasing headcount.

Streamline payroll tax compliance:

Rely on dedicated tax account managers for quarterly reviews, tax change updates, and proactive data audits to ensure compliance and accuracy.

Streamline operations: Simplify your systems and maximize Workday's capabilities so that you can focus more on supporting your workers and delivering exceptional care.
