What our customers are saying

"Our philosophy is that we need to be in the BJ Services business and not specialize in benefits services. Even if we could do this in-house at an expert level, why would we want to? It's not our specialty; we have our business to focus on."

Junaid Karimi, Sr. Manager of Compensation & Benefits, BJ Services

"I was really impressed with our benefits specialist. We are currently working on benefits in the U.K. and Ireland. We asked our specialist some very complicated questions, and she knew the answers right away."

Ortie Martinez, Sr. Manager of HR Systems, Jazz Pharmaceuticals
